ABOUT US

HOUSEBOAT COMPANY RECOGNIZED WORLDWIDE FOR DESIGN

Water lovers welcome. Whether you know HT Catamarans, one of our older brands HT Houseboats, or are the first houseboat owner, you are here because the water is calling your name. Owning a small or large boat gives you freedom and independence.

At HT Catamarans, we understand this calling and take pride in every detail of every boat we produce. From the drive system to the cabinet, we meticulously tailor your experience to fit your lifestyle and your identity. Our process is simple but thorough. So let's listen to your ideas and start creating the dream boat you think of.

COMMITTED TO QUALITY

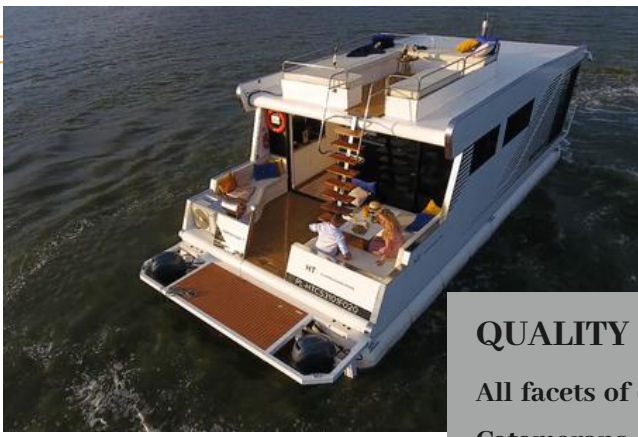

Making the decision to build a new houseboat is an exciting venture! How big? How many staterooms? What will the top deck need to have? What other innovations are on your list? Start by taking a look at the floorplans available from HT Catamarans. The manufacturing and design team behind these companies have over 11 years building exceptional houseboats. Our talented professionals and engineers will provide you with an unparalleled level of service.

[@catamaransht_shipyard](https://www.instagram.com/catamaransht_shipyard)

www.catamarans-ht.com

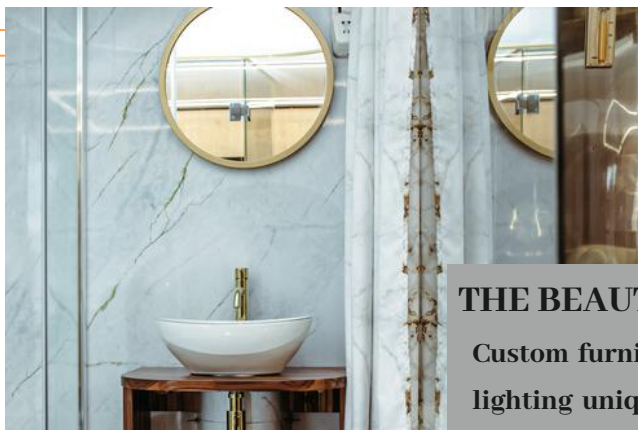

QUALITY STANDARDS

All facets of design and production are completed in-house at our HT Catamarans manufacturing facility located in Mielno, Poland. Combining new technology along with proven engineering enables us to build a superior houseboat each and every time. Our longevity in this business is a result of a genuine understanding of our clients' desires and their needs. Our talented team of tradespeople includes engineers, welding, carpenters, mechanical and interior design.

OUR CRAFTSMANSHIP SETS THE STANDARD

Our boat engineers and technicians are the heart and soul of our company. They meticulously check each houseboat before it rolls out of our door and touches the water. Our multi-point inspections combined with our patented, durable structures ensure that your boat is built safe from the elements of the water.

THE BEAUTY IS IN THE DETAILS

Custom furnishings paired with quality cabinetry. Subtle or dramatic lighting uniquely chosen to represent the boat owner. Exterior living spaces that make a fashionable first impression. Our design team members are veterans in creating, not only beautiful houseboats, but lifestyle pieces that transcend periods in time. Whether you enjoy classic, elegant styles, or the trendier side of life, we look forward to exceeding your expectations.

CRUSING

HOUSEBOATS IN PRODUCTION

See what our happy customers are building now! These boats are currently manufactured or built in our production facility.

We have provided some sample floor plans that we designed and built. As a boat manufacturer, there aren't really any "standard" models, but we do have a few boats that have become very popular and are therefore considered "standard".
